

LAWYER-ED

# JOB SEARCH ENGINE POLICIES

## WHAT IS THE JOB SEARCH ENGINE (JSE)?

The Lawyer-Ed Job Search Engine intends to **support students in their hunt for legal experience**. We intend to provide a wide array of jobs to support everyone's interests, and will compile the best ones for students!

## IF YOU CAN'T FIND A JOB, WE'LL LOOK FOR ONE FOR YOU!

One of our features is that students can fill out the Google Forms (available on the JSE) to share areas of law they're interested in applying to, and we will **refine our search to match those interests**.

## INFORMATIVE RESOURCES, 'HOW-TO' SESSIONS & MORE

We are here to support you through the *entire application process*. Through tips and tricks for applying to jobs, we will provide you with all the support possible so you can succeed in your job!

## BEHIND THE SCENES

We understand that we don't know everything, and we will find you the answers you need. If we don't have the answer to a question you have about a job, we can look to find it elsewhere. Whether it is through interviews, conversations with employers, blog posts, or Zoom calls, we will be here to support your questions!

## ONLY THE NEWEST JOBS

We will only carry up-to-date jobs. We will check twice a week to ensure that all our jobs are fresh and ready for you to apply to! Have no fear of expired jobs or pointless applications.

## WEEKLY JOB GUARANTEE

Every week we will have 5 jobs uploaded. We promise there will be a constant flow of new jobs available, depending on location and interest levels at a given time!
